COMPLETE SET

5.490 €

Best. Nr. 111299

plus VAT

The location-independent workstation!

The TagRec Station is a mobile workstation that takes the labeling system and the PC wherever they are needed. It reduces the travel time between the workstation and the marking location and increases productivity!

The LabelMax SP3 is a labeling system for comprehensive labeling solutions. It also comes with the easy-to-use SignMax sign software with all common pictograms and sign templates.

Our proven battery system ensures that the TagRec Station is powered for a complete working day*. The trolley's robust design is adapted to a harsh environment and the industrial-grade castors make it easy to move.

APPLICATION AREAS

The LabelMax VS1 is perfectly suited for any outdoor application without any power supply - whether industrial or trade, as well as logistics, plant and construction site markings... The VS1 convinces with its full performance spectrum. Convince yourself - we are also happy to come by and present you his skills directly on site.

Perfect for:

- Logistics outdoor
- Plant and machine markings
- Construction site marking
- Safety markings
- Pipe markers
- Test & measurement technology for identification and marking
- and much more!

Print specification:

- Media width: max. 105 mm
- Print size: max. 100×1500 mm
- Thermal transfer printing system with up to eight ribbons mit nine special ribbons
- Extremely robust, mobile system for outdoor use

SAVE COSTS WITH OUR MAINTENANCE SERVICE!*

MAINTENANCE CONTRACTS*

Experience has shown that most failures and malfunctions are due to contamination. Preventive professional cleaning and regular maintenance increase the service life and functionality of your labeling system!

Advantages at a glance:

- Decreasing and predictable costs
- Fewer failures due to a regularly checked system
- Early detection of defects or technical wear

ACCESSORIES

FILM CARTRIDGES

Topseller!

Max Premium & Max Premium Plus films

The vinyl films are cadmium-free and feature excellent resistance to UV light, chemicals and moisture. They are perfect for indoor and outdoor use. The film cassettes are protected by a sleeve so that you always have optimum protection of the material when changing the film.

Max Premium

A highly adhesive vinyl film for extremely long-lasting markings. Max Premium is the perfect film for, for example, plant and machine labeling.

Max Premium Plus

Very strong adhesive vinyl film that adheres excellently to low energy surfaces and also has very good adhesion to lightly soiled surfaces. Ideally suited for permanent markings in harsh environments.

HAZARD DIAMOND & BATTERY LABELLING

Hazard Diamond

System for assessing the danger of dangerous goods

The hazardous diamond was developed as NFPA 704 („hazard diamond“) in the US. The danger diamond is equipped with four coloured fields and is read from left to right in a clockwise direction, with the blue field being the first one.

Blue section:
Health

Red section:
Flammability

Yellow section:
Instability/reactivity

White section:
Special notice

Battery Labelling

Since 01.01.2019, the new dangerous goods license plate for small lithium batteries according to ADR 2017 applies. Your packages must be marked as follows:

UN number 3480 = Lithium ion batteries
(including lithium-ion polymer batteries)
Class 9

UN number 3090 = Lithium metal batteries
(including lithium alloy batteries) Class 9

CABLE AND TUBE MARKERS

Cable marker made of self-adhesive, transparent foil for printing or self-inscribing in different colours. Self-laminating, easy to handle and high adhesion. The transparent area protects the text and offers a high resistance to abrasion, dirt and solvents.

Ideal solution for labeling wires and cables.

Choose the colour for your labels:

Please add the desired colour no. behind the item no.
 Example: SP701-D10 = 45×20 cable/tube marker in white
